Our Learning

Maths

P6b have been learning about lots of different types of numbers including square and cube numbers. We have been doing lots of work with multi step problems that include addition and subtraction. When we finish our worksheets we play times tables games and activities. One of our favourite games is times tables bingo because it gives us a chance to get extra house points.

Literacy

In literacy our class has been working on different genres of writing. At the moment we are writing expositions. In our language jotters we do our SRA comprehension and when we complete five SRA's we move up a level and get five house points. Every other Thursday we see our reading buddies and we help them with common words, reading and pronunciation.

H & W

In health and wellbeing we have been learning about how to keep ourselves safe by learning personal safety strategies. In PE we have been playing Handball with MR Ferguson. Our class have been doing daily mile plus we went to a wee forest activity and learnt how a tree works.

Next up-

As a class we have been working hard daily on the school show. MR Casey from West Calder High School has been giving us tips on our acting skills and helping us show our emotions. Mr Wood and Mrs Davidson are teaching some people bike ability skills next term and skiing is starting soon.

Easter messages-

For the Easter fair we are taking care of a stall called Easter pairs and the rules are quite simple: first of all there are cards laid out on a table you pick a card out of the deck that someone will be holding. There will be prizes on some of the cards that are laid out & if you pick out a card that has a prize on it you win that prize. If you pick an Ace you win a big prize.
